- Vehicular Cyber Test & Integration
- Penetration Testing
- IOT Security
- Risk Management
- POAM Processing
- Anti-Drone Initiatives
- Network Protection
- Facial Recognition

DATA MANAGEMENT & ANALYTICS

- Multi Data Source Integration
- Data Quality
- ETL
- Big Data

PAST PERFORMANCE

DEPARTMENT OF COMMERCE, U.S. CENSUS BUREAU

Provided integration & testing services for 64+ integrated systems involved in the 2020 US Census. Also implemented an enterprise level Test Center of Excellence to provide testing (functional, integration, accessibility, automation, performance) as a service to support enterprise testing needs, including 30+ national U.S. Surveys. Additionally, provided custom development (web and mobile) to support internet responses along with integrated custom SharePoint applications and dashboards.

DEPARTMENT OF VETERAN AFFAIRS

Provided software development, testing and deployment management services for the Project Management Accountability System (PMAS). This enabled PMs across the U.S. to centrally manage over \$500M in projects. Also developed a custom OMB submission tool that reduced submission time and errors by over 55%.

DEPARTMENT OF THE NAVY, NAVSUP

Provided cybersecurity, training, RMF and database services. This enables the Navy to ensure that compliance is maintained and supports the mission of assured continuity of operations for the warfighter.
